

BREED SPECIFIC LEGISLATION TARGETS THE WRONG END OF A DOG LEASH

BREED BANS DON'T STOP DOG BITES

- Children, the most vulnerable victims are **STILL** at risk from all types of dogs. Most often the canine culprits are known or local dogs, at or close to home.
- They divert scarce resources to seek out a **SMALL** number of community dogs. Breeds included are not the most listed offenders in statewide attack lists
- **Breed specific laws rob responsible, tax-paying, dog owning citizens of their RIGHTS**
They punish good dogs & good owners for the sins of a minority of others
- They bring about injustice, cruelty, and the killing of **INNOCENT** pups / dogs
Misidentification of crossbreeds occurs. Negligent ownership and cruelty continue...
Human actions or irresponsibility aren't circumscribed by "breed"

**WE NEED A RETURN TO DEMOCRATIC LAWS, ENFORCED AND ACCEPTED
PLACING THE ONUS ON OWNERS OF ALL BREEDS & TYPES OF DOGS
WITH WIDE SPREAD COMMUNITY EDUCATION ON SAFETY WITH DOGS**
